

# CURRICULUM VITAE

## Personal information

- **Personal**
  - **Prof. SAIHIA Asma**
  - **Department** of nature and life sciences, University of Larbi Ben Mhidi Oum El Bouaghi, Algeria.
  - **E-mail** : asma\_bio23@hotmail.fr
  - **Mobile** : 0664846854
- **Researcher identity**
  - ✓ **Google Scholar**: <https://scholar.google.com/citations?hl=fr&user=YSpALr8AAAAJ>
  - ✓ **ResearchGate**: <https://www.researchgate.net/profile/Asma-Saihia>
  - ✓ **ORCID**: <https://orcid.org/my-orcid?orcid=0000-0003-0830-5274>

## Education

- **Ph.D.'s degree** in Animal and environmental biology option reproduction and development
- **Master's degree** in Ecophysiology of animal reproduction
- **License's degree** in Behavior and adaptation

## Functions and Affiliations

**Associate professor**, Associate professor A

*Department of Nature and Life Sciences, Faculty of Exact Sciences and Nature and Life Sciences, University of Larbi Ben M'hidi, Oum Elbouaghi, Algeria*

## Teaching modules

- Embryonic development (license in biology and animal physiology)
- animal biology (1<sup>st</sup> license)
- Immunology (2<sup>nd</sup> license)
- zoology (2<sup>nd</sup> license)

## International publications

- **Asma Saihia, Khiel Saida and Lounis Moufida** , Amelioration of ethanol reprotoxicity by aqueous *Spinacia oleracea* extract in male rabbits *Oryctolagus cuniculus*, South African journal of experimental biology, 2021, 11(6): 746-750.
- **Khiel Saida, Allaoua Noua and Saihia Asma**, influence of *Punica Granatum* peel on sperm parameters of domestic rabbits (*Oryctolagus cuniculus*) in zinc chloride induced toxicity, South African journal of experimental biology, 2020, 10(5): 277-284.
- **Asma Saihia, Kamel Khelili and Med Saleh Boulakoud**, Effets d'éthanol sur la fertilité du lapin mâle adulte *Oryctolagus cuniculus*, International journal of Biological and Chemical Sciences, 2015, 9(4): 1910-1917.
- **Asma Saihia, Kamel Khelili and Med Saleh Boulakoud**, Ethanol exposure induces liver and kidney injury in adult male rabbits, Annals of Biological Research, 2014, 5 (4):23-26.
