

University of Oum El Bouaghi

Bachelor's degree in Education

1. Program Description:

A bachelor's degree in educational psychology is designed to intellectually prepare students to pursue master's degrees in the same field. This training is for students who have a baccalaureate degree in the literature and philosophy stream, the experimental sciences stream, and the stream of the foreign language. It lasts three years; the student studies the common-core syllabus of social sciences in the first year, then educational sciences in the second year, and educational psychology in the third one. It allows the graduate to work as an educational specialist and counselor in kindergartens, different schools and educational institutions. The training's goal is to assist students obtain knowledge and abilities in educational psychology in both its global and functional dimensions, while also instilling in them an adaptive approach.
