Jan 22nd, 2024

Key Answers Exam

Part 1: Reading Comprehension: (8pts ... 1pt for each one)

- 1- Architecture and interior design.
- 2- Architecture focuses on the overall structure, form, and external appearance of a building.
- 3- Interior design delves into the aesthetic, functional, and spatial aspects of the interior spaces within a building.
- 4- Architects consider factors such as site conditions, climate, and cultural context.
- 5- Architects influence the architectural elements, from the facade to the layout, which collectively influence the overall character of a building.
- 6- Interior designers transform empty spaces by paying careful attention to color schemes, lighting, furniture, and spatial arrangements to create functional and aesthetically pleasing interiors.
- 7- Interior designers pay careful attention to color schemes, lighting, furniture, and spatial arrangements.
- 8- The collaboration between architects and interior designers is described as a dance of creativity and functionality. Architects set the stage, and interior designers work within the established framework to enhance the interior and complement the overall design concept.
