UNIVERSITY OF OUM EL BOUAGHI

Report on the United Nations Sustainable Development Goal 9: Industry, Innovation, and Infrastructure.

ABSTRACT

This specific report focuses on the "Industry, Innovation, and Infrastructure" aspect of Sustainable Development Goal 9 (SDG 9) for the period between 2022 and 2025 at the University of Oum El Bouaghi.

Industry, Innovation and Infrastructure (SDG 9)

University Spin-Offs and Labeled Ventures

The University of Oum El Bouaghi Business Incubator's register, "List of recipients of the Start-up or Innovative Project label," records 12 labels in 2024 and 19 in 2025 (31 total). These are labeled start-ups or innovative projects; the register does not establish that all 31 are distinct, operating university spin-offs.

Research Income from Industry and Commerce

The supplied baseline is 1,743,000,000 DZD. Applying the requested 9% adjustment gives 1,899,870,000 DZD. The adjusted amount is a calculation from the supplied baseline, not a separately verified revenue figure.

Research Income by Subject Area

- **STEM — baseline 900,000,000 DZD; +9% adjusted 981,000,000 DZD**
- **Medicine — baseline 219,786,000 DZD; +9% adjusted 239,566,740 DZD**
- **Arts and Humanities / Social Sciences — baseline 623,214,000 DZD; +9% adjusted 679,303,260 DZD**

The baseline subject-area amounts sum to 1,743,000,000 DZD; their +9% adjusted amounts sum to 1,899,870,000 DZD.

Number of Employees

The updated SDG 9 data file lists 2,300 employees in a later cross-SDG reference. The earlier narrative report lists 2,000 employees for 2024. The source materials do not confirm matching dates, definitions, or coverage, so these figures remain separate reporting series.

Number of Academic Staff

The updated data file lists 1,082 academic staff in the latest cross-SDG reference, with HR-certified date pending. The earlier 2024 subject-area breakdown totals 1,072; the reporting periods and coverage are not confirmed to match.

Academic Staff by Subject Area in the Earlier Series

- **STEM: 550**
- **Medicine: 25**
- **Arts and Humanities / Social Sciences: 497**

The earlier subject-area breakdown totals 1,072 academic staff.

Data Source and Calculation

The Business Incubator register supports the annual label counts. The income adjustments equal each supplied baseline multiplied by 1.09. Label counts are not treated as proof of operating spin-offs, and adjusted income amounts are identified separately from the supplied baseline.
