LABORATOIRE DES SUBSTANCES NATURELLES, BIOMOLECULES
ET APPLICATIONS BIOTECHNOLOGIQUES

Organize on 04/12/2021

The first day of the young researcher

Objectives The laboratory for natural substances, biomolecules and biotechnological applications is organizing the first doctoral day this year, which is a meeting place for our doctoral students with their doctoral training teams. It represents an opportunity for an exchange of scientific knowledge between doctoral students in the biological science sector. This event dedicated to promoting the visibility of the research work in progress as part of doctoral theses and to encourage doctoral students to take better charge of the valuation of their work.

The presentations will be in the form of an oral presentation. These presentations will first be evaluated by panels made up of members of the CFD doctoral training committees. A competition for the best presentation is also organized as part of this event.

Presentations

- ✓ The header and the logo of the university and the laboratory must be included on all presentations
- ✓ The time dedicated to the oral presentation is limited to 10 min and 5 min for questions.

Evaluation criteria

Substantive assessment

- ✓ General interest of the thesis (Originality, innovation, scientific excellence, approach, etc.)
- ✓ Presentation of the problem
- ✓ Evolution of the work and promotion of the results of the thesis (Scientific production)

Form assessment

- ✓ General presentation
- ✓ Presentation support (power point, etc.)
- ✓ Respect for time
- ✓ Answer to questions
