

Schedule of First Year Master - Chemical Engineering (S1) block B - Class N°38

Jour	08H00 to 09H30	09H30 to 11H00	11H00 to 12H30	break	13H30 to 15H00	15H00 to 16H30
Saturday		Adherence to ethical standards and rules of integrity Distance Learning Ferhati. A				
Sunday		Applied Thermodynamics Course Mecheri. G	Applied Thermodynamics Directed work Mecheri. G		Heat exchangers Practical work / Labo Mecheri. G	
Monday	Unit operations 1 Course Bendada. A	Unit operations 1 Practical work / Labo Boussid. N			Simulators in process engineering Course / Infor N° Selatnia. I	Simulators in process engineering Practical work / Infor N° Selatnia. I
Tuesday	Heat exchangers Course Rezgui. Y	Heat exchangers Directed work Rezgui. Y	Porous and dispersed media Course Allama. F		Advanced Python Programming Course Boukaloul. S	Advanced Python Programming Practical work / Infor N° Boukaloul. S
Wednesday	Porous and dispersed media Directed work Allama. F	Porous and dispersed media Practical work / Labo Allama. F			Adherence to ethical standards and rules of integrity Distance Learning Ferhati. A	
Thursday	Unit operations 1 Course Bendada. A	Unit operations 1 Directed work Bendada. A				

Schedule of 3rd Year License in Process Engineering - (S5) block B - Class N°36

Jour	08H00 to 09H30	09H30 to 11H00	11H00 to 12H30	break	13H30 to 15H00	15H00 to 16H30
Saturday		Pollution: Air, water, soil Distance Learning Mecheri. G				
Sunday		Matter transfer Course Boussid. N	Matter transfer Directed work Boussid. N		instrumentation sensors Course Rechame. D	Pollution: Air, water, soil Course Mecheri. G
Monday	Heat transfer Course Rezgui. Y	Heat transfer Directed work Rezgui. Y	Kinetics and homogeneous catalysis Course Mecheri. G		Macroscopic assessments Course Allama. F	
Tuesday	Agro-food processes Course Belferragui. M	Quantity transfer of movement. Course Belferragui. M	Quantity transfer of movement. Directed work /SG01 Belferragui. M		Macroscopic assessments Directed work Allama. F	Quantity transfer of movement. Directed work/SG02 Belferragui. M
Wednesday	Analysis techniques Course Hamdane. S	Analysis techniques Practical work /G01 Hamdane. S	Pharmaceutical Processes Course Allama. F		Chemical Engineering and Physical Chemistry 1 Practical work / Lab15+16 / SG01+02 Guemini. M/ Hamdane. S	
Thursday	Electrochimie Course Guemini. M	Electrochimie Directed work SG01 Guemini. M	Electrochimie Directed work SG02 Guemini. M			

Schedule of Second Year Master - Chemical Engineering (S3) block B - Class N°40

Jour	08H00 to 09H30	09H30 to 11H00	11H00 to 12H30	break	13H30 to 15H00	15H00 to 16H30
Saturday		Documentary research and dissertation design. Distance Learning Belferragui.M				
Sunday		Refining and petrochemical processes Course Ferhoune. I	Refining and petrochemical processes Directed work Ferhoune. I		Chemical reserve engineering Course Boussid. N	
Monday	Optimization Method in Process Engineering Course Zermane. A	Optimization Method in Process Engineering Directed work Zermane. A	Chemical reserve engineering workshop Boussid. N		Refining and petrochemicals Practical work Allama. F	
Tuesday	Fundamentals of Modeling in Process Engineering Course Bendada. A	Fundamentals of Modeling in Process Engineering Directed work Bendada. A	Process Control and Regulation Course Ourzifi. W		Process Control and Regulation Directed work Ourzifi. W	
Wednesday	Multiphase reactors Course Rezgui. Y	Multiphase reactors Directed work Rezgui. Y			Intensification of processes Course Gherraf. N	
Thursday	Documentary research and dissertation design Course Belferragui.M	Experiment plans Course Zermane. A	Experiment plans Practical work Zermane. A
