

ANSWER EXAM Foreign Language 4- L02

Exercise 01 (3 points) 1.5 points each)

1. What is urban planning? Give a simple definition in your own words.

Urban planning is the practice of designing and managing cities. It focuses on how land is used, where buildings are built, and how people move around the city.

2. What is the difference between a 'commuter belt' and a 'satellite town'?

A commuter belt is an area just outside a city where people live and travel to the city every day to work. A satellite town is a small town that is close to a big city and depends on it for services and jobs.

Exercise 02: (8 points, 1 point each)

1. The process by which more and more people move to live in cities is called urbanization

2. Too much traffic on the roads at the same time creates congestion

3. Roads, bridges, electricity networks, and water systems are all part of a city's infrastructure

4. A greenbelt is an open or forested area at the edge of a city, protected from construction.

5. A satellite town is a small town near a big city that depends on it.

6. When planners want to bring life back to an old, neglected area, they revitalize it.

7. Parks, hospitals, and sports centres are examples of public amenities

8. Good urban planning must sustain the city's resources for future generations.

Exercise 03: (9 points)
