## ALGERIAN SCIENTIFIC JOURNAL PLATFORM

After the establishment of a unified national platform for scientific journals through which scientific research is sent and judged by experts and specialists in various fields, it is possible to enter the national platform for scientific journals and registration.

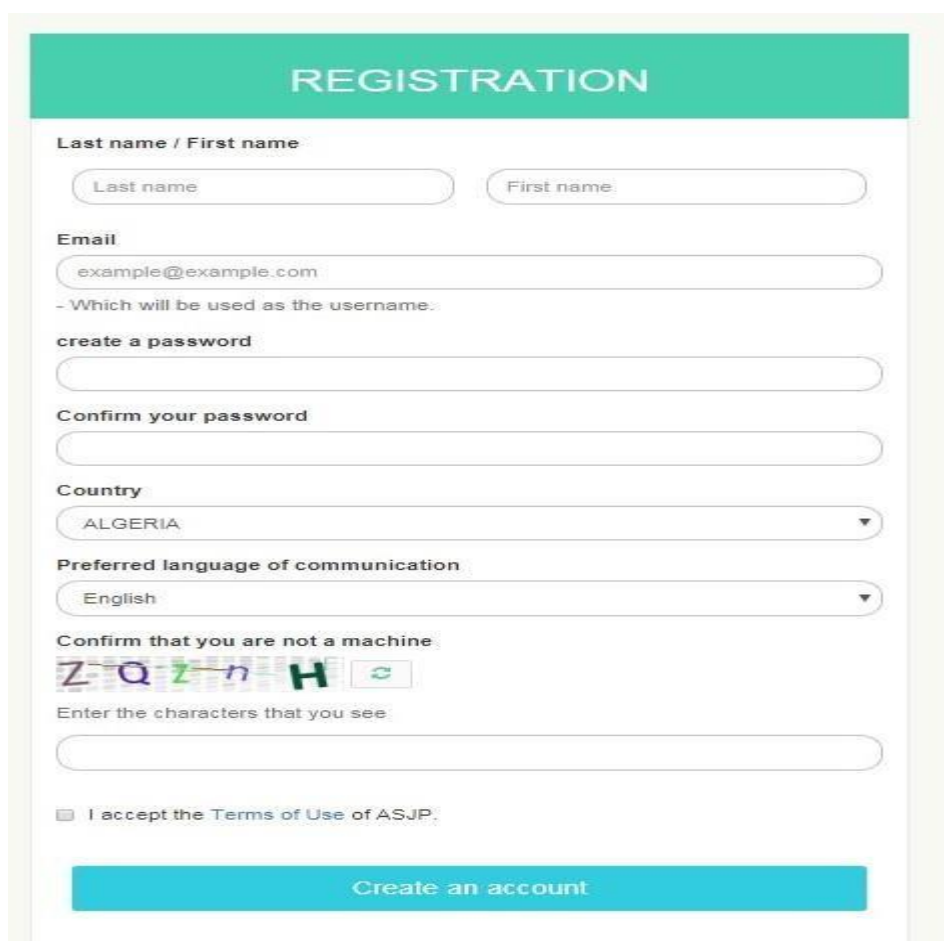

Registration is necessary to submit articles online and to follow up various stages of article evaluation

Registration is through the following stages:

First: Access to the link of the National Platform for Scientific Journals:

<http://WWW.asjp.cerist.dz/en/Login>

Second: Fill in the following information:

The image shows a registration form titled "REGISTRATION" in a teal header. The form is set against a light yellow background. It contains several input fields and dropdown menus. The fields are: "Last name / First name" (split into "Last name" and "First name" sub-fields), "Email" (with a placeholder "example@example.com" and a note "- Which will be used as the username."), "create a password", "Confirm your password", "Country" (a dropdown menu showing "ALGERIA"), "Preferred language of communication" (a dropdown menu showing "English"), and a CAPTCHA section titled "Confirm that you are not a machine" showing a grid of characters "Z Q z n H c" with the instruction "Enter the characters that you see". At the bottom, there is a checkbox for "I accept the Terms of Use of ASJP" and a large teal button labeled "Create an account".

Third: Confirm registration by entering your e-mail

Published in Challenge Magazine:

The Challenge Magazine is an international scientific journal devoted to publishing original research and scientific studies specialized in the field of science and technology of physical and sports activities. The research is subject to the academic standards and conditions of arbitration by experts and researchers from Arab and foreign countries. In which the conditions of international scientific journals and the court, we invite the authors to publish in the magazine follow the following steps:

**First: Login to the link of the Challenge magazine within the National Platform for Scientific Journals:**

**The Abstract (150-250 words):** it is considered as a starting point through which the researcher presents a brief view on the main research axes that have to contain the following elements: ( aim of the research, the adopted methodology, the society, the sample and sampling, the tools used to achieve the principal results ..

**Key words:** at least three

**Abstract:**

concerning the abstract in English , a translation of the content into Arabic is mandatory.

**Key words:** at least three

Sixth: Notification of receipt of an article:

In the case of success of the process of sending the article on the podium a message appears on the screen showing that in a stage of the receipt of the author sent to his email notification of the

submission of an article, and notice the second author on his email to confirm his participation in the article.

Seventh: Notice of rejection of the article: If it appears that the article does not respect the template of the magazine and the conditions of publication, the authors will be notified of the rejection of the article.

Eighth: If the author wishes to withdraw the article, the podium enables him to withdraw before accepting his review

## Article evaluation procedures

### 1. Step 1:

The article is checked anonymously (after deleting the names of the authors) at the level of the secretariat of the journal, which regularly investigates the authors' compliance with publishing rules and the appropriateness of their articles for the field of science and technology of physical and sports activities before sending them to the editors. If the article does not receive a positive acceptance from the editors, it will be returned to the author with the comments and suggestions of the editors, and the author can be re-sent after taking into account the recommendations made.

### Step 2:

In the case of the author's commitment to the directives of the publishing rules and its relevance to specialization, the article will be eligible for the evaluation process (introduction of induction, keywords, problem of research, research objectives, importance of research, previous studies and related research, exploratory study, Research, tools used in field study, scientific conditions of tools, linking research results with theories and previous studies.

The anonymous article will be sent to the double assessment by the editors. Without each, the article will be sent to two reviewers under its network, according to a unified assessment network that must be packaged in a mandatory manner.

The co-editor can also edit the article himself if desired.

### 3. Period of evaluation of articles:

The evaluation period is 30 days, but reviewers take an average of two months to send evaluation results to the magazine.

### 4. Evaluation Status of Articles:

When an article's project evaluation receives a positive and negative opinion, a third assessment of other references is required, taking into account its national or foreign origin.

### 5 - Follow-up status of the article on the podium:

The author can enter his account in the platform and follow the article stage by clicking on the icon (articles) and then clicking on the icon (articles sent) a table will appear with details of the article:

Title - Date of the publication - the name of the magazine - details - the situation - and the latter

Passing on several stages:

Step 1: Accept or reject control

- Phase 2: A pending article

- Fun 3: Give the article to reviewers

- Stage 4: The decision of the reviewers: acceptance of the article or rejection or request for amendment.

When the article is accepted for publication, the author is requested to include references.

### 6. Inclusion of references within the platform:

In order to create LASIK numerical indicators for scientific performance, we ask authors to contribute bibliographic references to their articles according to the frame of limitations once articles are accepted for publication.

Supported bibliometric indicators are:

- Effect factor (IF) for magazines
- Indicators (H) and (i10) for authors.

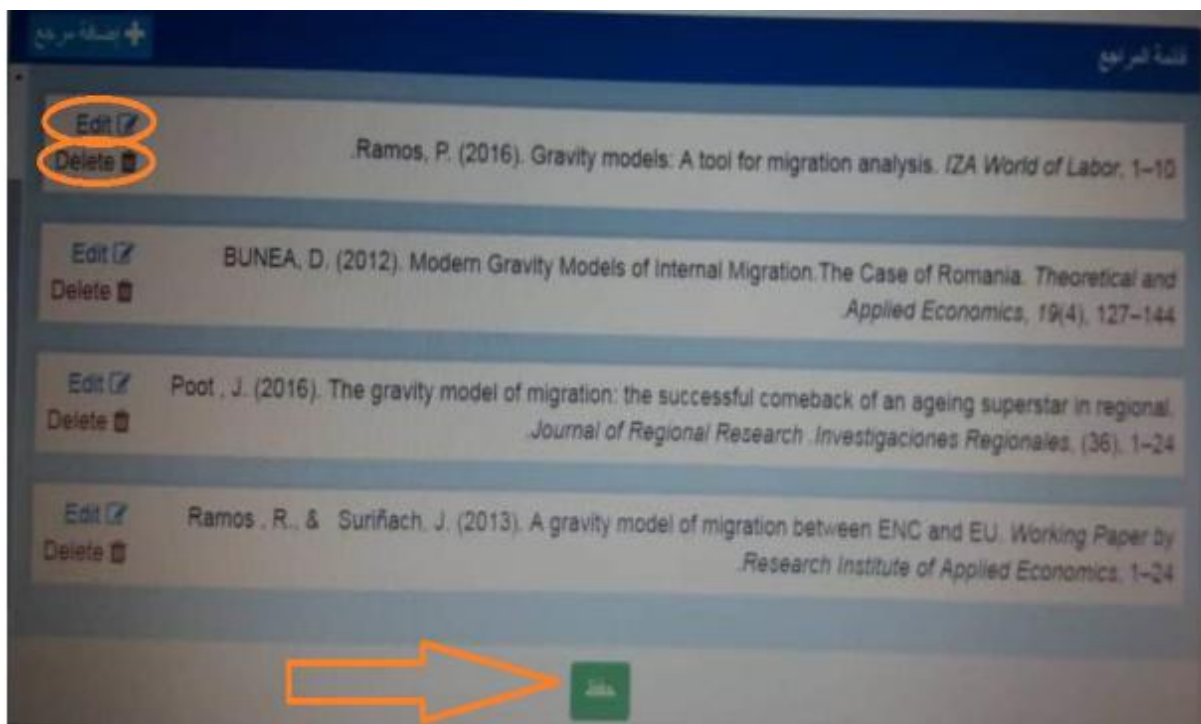

All indicators are based on bibliographic references to articles.

It is important to note that if references are not entered, accepted articles can not be published.

The references are listed as follows:

After accepting the publication of your article, you must include all references used by clicking on the "Add Reference" icon with the possibility to modify any reference later by clicking the "Edit" icon or delete it on the "Delete"

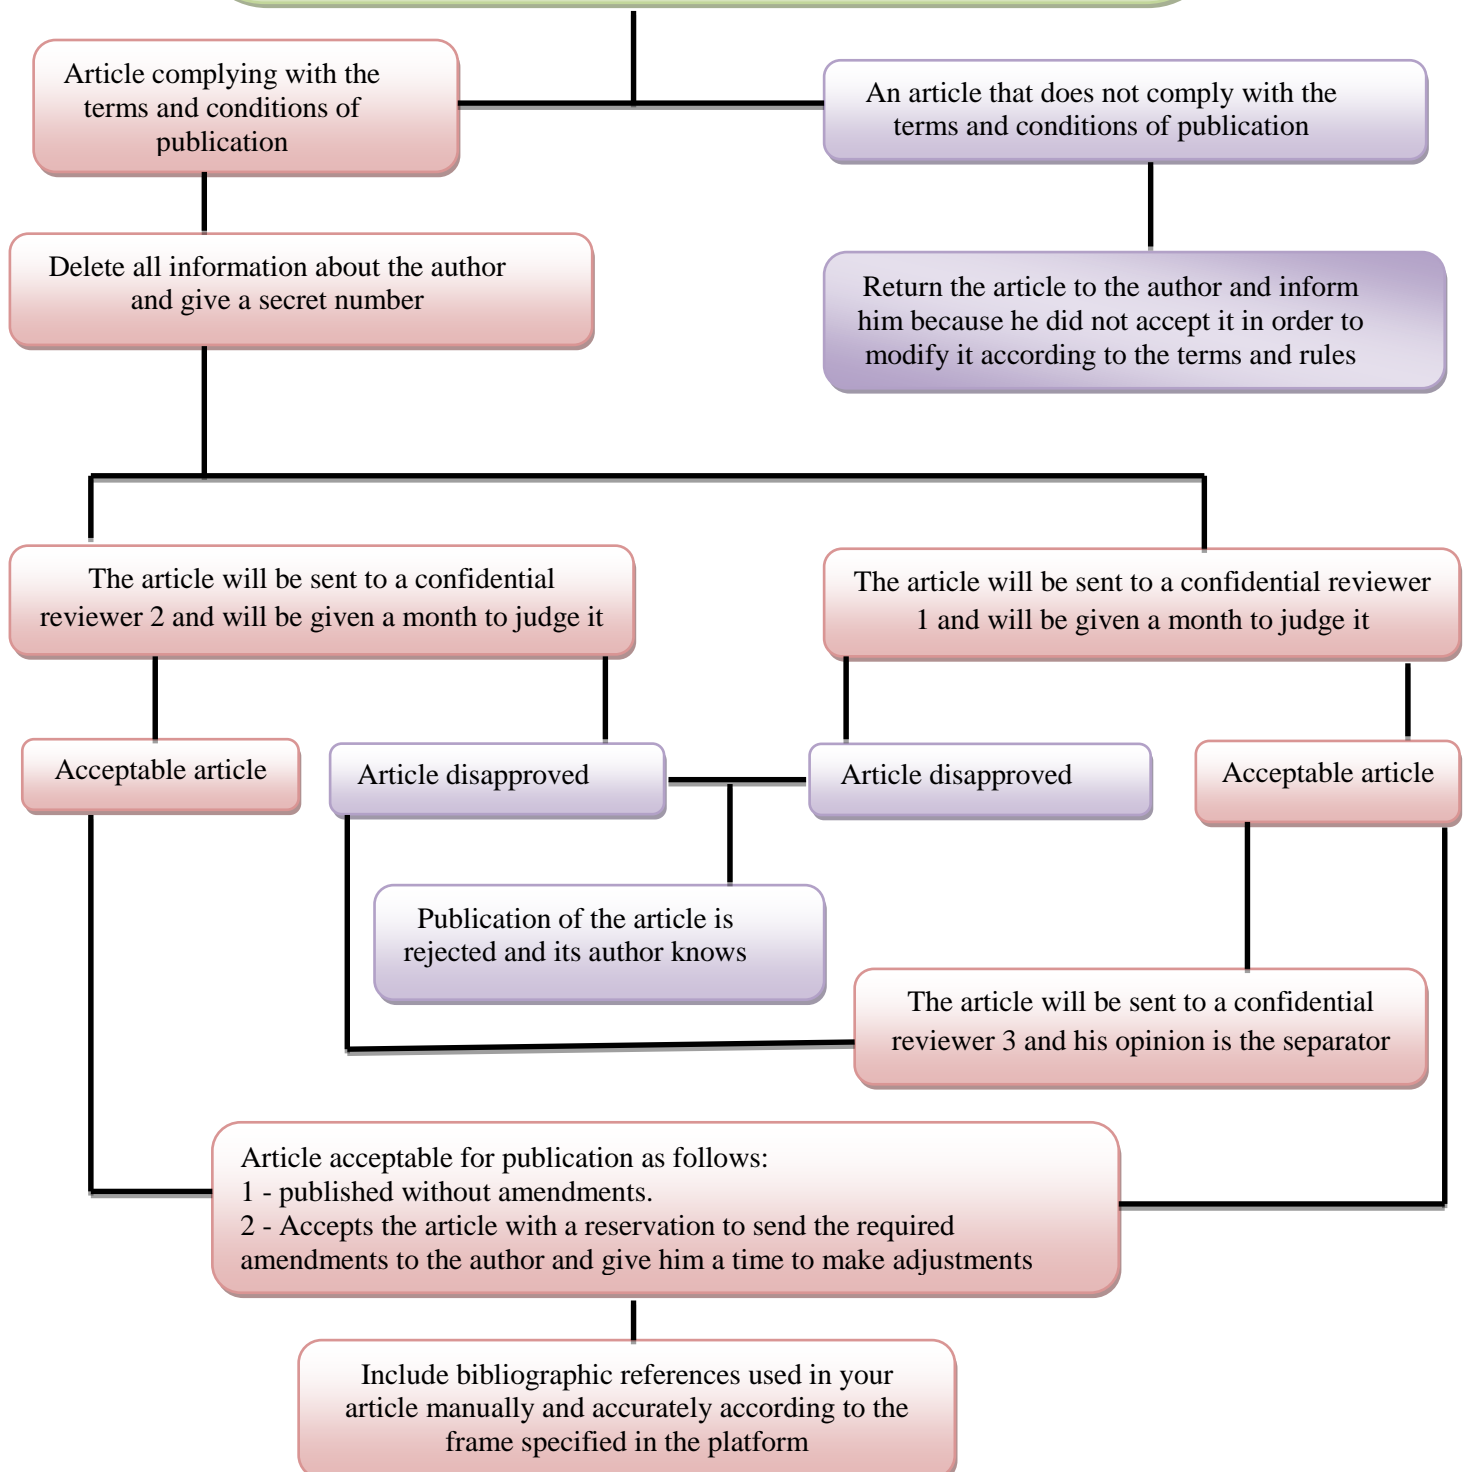

After you submit all references you can click on the "Save" icon shown in the image

## An outline of the presentation and evaluation process

- 1- All articles are received exclusively through the ASJP as follows:
- 2- You must register on the platform and open an account on the site:  
<http://WWW.asjp.cerist.dz./en/login>
- 3- Access to the site of the magazine in the platform according to the link:  
<https://www.asjp.cerist.dz/en/PresentationRevue/71>
- 4- Send the article file in the form of "WORD" after the author's guide and author's instructions
- 5- Follow up the stages of receipt and evaluation of the article through your account in the ASJP platform
- 6- the stages of evaluation of your article according to the following stages:

#### Guidelines for authors:

Authors are invited to read these recommendations and apply them carefully.

- The editor has the right to return the article that did not respect these rules.
- The magazine is keen to publish the research sent to it and that meet in the form and content the following scientific conditions:

1. The authenticity of the material submitted for publication and not published in any previous publication, and should not be derived from a university thesis discussed.
2. Submit the text of the research exclusively to the National Portal of Scientific Journals based on the journal link

<https://www.asjp.cerist.dz/en/PresentationRevue/71>

3 - The author can not submit an article for two magazines at the same time as the platform was able to see the possibility of sending the article not many of the magazine and so the article is rejected.

4- The research should be accompanied by an abstract in Arabic and in English.

5 - adhere to the research methodology and appendix bibliography be arranged in alphabetical order

6 - For tables and shapes (especially large and complex) are sent in the form of accurate picture within the accessories in addition to the original form within the text.

7- The number of search pages should be limited to (12-20) pages

8 - The right to refuse the research or request to amend it on the basis of the report of the arbitrators.

9 - To return the research to the owners whether published or not published

10 - Research reflects the views of the owners and do not necessarily reflect the opinion of the magazine.

11. The author is obliged to submit.

- "Undertaking and Obligation" proves to be bound by its terms and conditions of publication in the Journal.

- "Commitment and commitment" proves the commitment of his article to scientific integrity.

- \* The contracts are signed by the authors and sent to the journal

**revueledefi@yahoo.com**

(It should be sent on the same day with the file name as the sender), and when you email us please use the same email in your article

12. Send the article to be once on the podium.

13. The researcher who published an article can obtain a certificate of publication.

14. The administration of the journal does not guarantee the printing of a copy of the number in favor of the researcher.

15. The Journal retains all copyright.

16. The journal is not responsible for any consequences related to any intellectual property rights.

The author of the article shall bear all the consequences thereof in accordance with the policy of the journal. No other article of the author shall be accepted if proved.
