University of L'arbi Ben M'hidi Oum El Bouaghi

Institute for Sciences and Techniques of Physical and Sports  
Activities

Organizes

The Third International Virtual Conference

Entitled:

## Contribution of measurement and evaluation to the development of sports performance

23/04/2022

with (Google Meet)

In coordination with Laboratory of biological and psychological responses to physical and sports activity

Honorary President: Pr. DIBI Zohir:

Director of the University L'arbi Ben M'hidi Oum El Bouaghi

General Supervisor: Pr. BECHIR Houssam:

Director of the Institute for Sciences and Techniques of Physical and Sports Activities

Conference Chairman: Dr. CHERIET Adel

The Chairman of the Scientific Committee of the Conference:

dr. Driouche Mohammed

The Chairman of the Conference Organizing Committee:

Dr. AZZOUTI Allaeddine

Email :

### Introduction:

It is certain that the trend of measurement and evaluation in the field of sport has become a vital issue, and progress in the process of sports training requires that measurement and evaluation participate in all areas of the sport. " physical education in order to collect data on individuals in order to know level, then prepare appropriate programs for each level until adequate planning and training is carried out in order to achieve the desired goal of the whole of the process.

It can be said that those in charge of measurement and evaluation must know how to use appropriate measurement methods so that the continuous evaluation process can take place in order to achieve the desired objectives. All this requires that those responsible for sports training have a great ambition to achieve the objective of sport, through codified scientific means of standards and tests as tools of objective evaluation.

From this point of view, the conference came to discuss issues directly related to measurement and evaluation from studies and research, where experts point out the importance of measurement and evaluation in applications. and research practices in all the human sciences in general and in the field of sport, particularly in the field of sports training. The thing that is lacking in Algeria, to our knowledge, there is no laboratory or research center that deals with the subject of measurement and evaluation in the sports field, and we also confirm that it does not There are no standards and levels specific to the Algerian sports community in all relevant fields and in all sports disciplines, as recognized in developed societies. Therefore, the aim of the conference is to achieve the goals and objectives of measurement and evaluation in athletic training, which are represented in classification, diagnosis, prediction, motivation, achievement and program evaluation ...

### Conference objectives:

- ✦ Discover the latest theoretical developments in sports measurement and evaluation.
- ✦ Presentation of the latest studies and applied research in measurement and evaluation in the sports field.
- ✦ Recognize the reality of sports measurement and evaluation.
- ✦ Anticipate the characteristics and challenges of measuring and evaluating sport in the field.
- ✦ Exchange of experiences and access to experiences in sports measurement and evaluation.
- ✦ Study of projects related to the development of the use of sports measurement and evaluation.
- ✦ Presentation of successful experiences in the field of sports measurement and evaluation.
- ✦ Take advantage of modern sports measurement and evaluation techniques.

### Axes of conference:

- ✦ Axis N° 1: measurement and evaluation in sports training.
- ✦ Axis N° 2: measurement and evaluation and their applications in psychological.
- ✦ Axis N° 3: measurement and evaluation and their applications in social sciences.
- ✦ Axis N° 4: measurement and evaluation in biomedical sciences and sports injuries.
- ✦ Axis N° 5: Measurement and evaluation and their applications in the field of physiology of physical effort.
- ✦ Axis N° 6: Studies of the standardization and calibration of national and international tests.
- ✦ Axis N° 7: Measurement and evaluation and their applications in the biomechanics of sports performance.
- ✦ Axis N° 8: Measurement and evaluation in the field of sports performance analysis technology.
- ✦ Axis N° 9: measurement and evaluation in science and technology institutes of physical and sports activities in university education.
- ✦ Axis N° 10: measurement and evaluation in physical and education activities.

**Conditions for participation:**

- Languages of the Conference: Arabic - English - French.  
(A summary must be included in a second language).
- The intervention must be written in a scientific methodology that takes into account all the conditions approved in the redaction of scientific research and it should be redacted on (A 4) paper.
- Arabic font (Simplified Arabic).
- The Arabic language typing standard (14).
- Interline in Arabic (1.15).
- Foreign languages fonts (Times New Roman).
- Foreign-language typing standard (12).
- Margins of the paper (1.5 cm) on each side.
- The intervention must be related to one search theme.
- The abstract of intervention must not exceed 300 words.
- The entire accepted intervention must be written in a Congress Template.
- The maximum number of pages (15 pages) including references and the first page.
- The research should not be previously used in any international or national scientific conference, a one-day symposium, or published in a scientific journal, whatever its classification.
- The abstract must be is on one page; the same goes for a Curriculum Vitae summary of the first researcher.
- Priority to individual and pair interventions.
- **An amount of 1000 DA is paid into the university postal account (participation fees).**

**Observation:**

- The best interventions will be published in a collective work:  
(ISBN)International Standard Book Number

**NB:**

- **Deadline to receive abstract on 02/04/2022.**
- **Responding to admissible intervention on 03- 09/04/2022.**
- **Deadline for interventions on 10-17/04/2022.**

**Important Information:**

- To register for the conference and submit the abstract, the form must be filled out and sent to the following email:

[con.eval.staps@univ-oeb.dz](mailto:con.eval.staps@univ-oeb.dz)

**The Conference Organizing Committee**
