Introduction :

Achieving a sporting performance is often presented as both a goal and a reward for all the effort made during training sessions of varying number, length and intensity.

Sporting effort is undeniably associated with new sports technologies and sciences to achieve these performances.

However, the period of crisis that the planet is currently going through in connection with COVID-19 obviously affects us all to different degrees. The sports community is no exception. Of course, one thinks first of all those professional leagues that have had to shut down, and all of those championships, events and tournaments that have been canceled or postponed.

Conference objectives:

- ↪ Reality of sports practice through the experiences of specialists in the field and the experiences of athletes.
- ↪ Training methods and the contribution of science to their development.
- ↪ Exchange of ideas and recent experiences between specialists in the field of sports sciences.
- ↪ Role of modern science and technology in the development of physical aspects and skills of elite athletes.

Axes of conference:

- Axis N0 1: recreational physical activity.
- Axis N0 2: sports training.
- Axis N0 3: sports medicine.
- Axis N0 4: school sports activity.
- Axis N0 5: university sports activity.
- Axis N0 6: sports psychology.
