

First national forum
on

Crime between Social Change and Ecology of the Carceral Environment.

November 29 – 28, 2022

Seen as a corrupt criminal, we think he is a
reintegrated individual.

Honorary president

Pr. DIBI zohir

General coordinator

Pr. ZAGDOUD samir

President

Dr. BOUZID Ibrahim

ARGUMENT

Contemporary societies have undergone many changes that have affected their structure and relationships within their circles. The demands of contemporary life are many and varied, and it is difficult to answer them, whether on the family side or on the society front, thus we have heard and witnessed multiple kinds of crimes, violence and revenge committed by its perpetrators of different age groups (young man old and even old one), the son kills his father, the husband kills his wife, and the wife kills her husband. This was like an SOS emergency call sounding the alarm and mobilizing all officials and unofficial entities in order to take note of this problem and control the spiral of its spread, at the same time aroused the interest of specialists and academics to explain it and try to know the main and real reasons behind it. For the same purpose, and in order to help stop this raising phenomenon, we have decided to initiate a platform for exchanges between different legal, social and security specialists to explain and figure out this threatening phenomenon.

THEMATIC AXES

1. Social, cultural change, change in values. and sources of control and crime.
2. Punitive Environmental Ecology and Punishment Effectiveness.
3. The criminal and the rehabilitation project.
4. Crime and penal amendments as a mechanism to combat crime.
5. Multiple sources of control as a mechanism for reducing crime.
6. Neuropsychological explanations of crime and mechanisms of modern treatment.
7. Crime from the perspective of forensic and health psychology.
8. Neighborhood crime and prevention measures.

AIMS OF THE SYMPOSIUM:

1. Know the most important social changes and their impact on criminal behavior.
2. Reveal the extent to which the ecology of the appropriate punitive environment contributes to changing the behavior of the criminal.
3. Reveal the effectiveness of the sentence in reducing the phenomenon of crime.
4. To know to what extent the multiplicity of sources of social control contributes to reducing crime.
5. The effectiveness of criminal updates and the extent to which they contribute to reducing crime.
6. Exploit, employ and modernize psychosocial approaches to develop a crime prevention strategy.
7. Demonstrate the effectiveness of joint action between various public bodies and structures to combat the phenomenon of crime (legal, security, social, civil and academic).
